FOREWORD.

The collection of Coins and Medals described in the following pages was formed in Hamburg during the closing years of the last Century.

The collector was a distinguished Numismatist, and a Foundation Member of the Hamburg Numismatic Society. On his death the collection passed to his descendents, who have been obliged to leave Germany and seek a new home in America.

As might be expected, local interest predominates in the collection, Brunswick-Luneburg, Brunswick-Wolfenbuttel and Hamburg City, being very strongly represented.

The large multiple talers of Christian Ludwig, Ernst August, Heinrich Julius, Friedrich Ulrich and August-the-Younger being exceptionally fine. There are many fine coins of the other German States, Bavaria, Baden, Mansfeld, Saxony and Reuss. Of these the Saxon series is the best, with fine early pieces of August 1553-1585, and multiple talers of John George I and John George II, as well as the rare Dick taler of 1661, and double Dick taler 1671.

Denmark is surprisingly well represented, there are no less than 620 coins and medals of this little country; probably more than have ever been sold in London before. The series begins with the 16th Century pieces of Christian IV, and continues to the close of the 20th Century, including many large handsome double kroners and double species.

Very interesting too is the Swedish series with its Salvator talers, and unwieldy plate dalers or "notgeld." The largest of these a 4 daler piece of 1735 is 25 cm. across, while a 2 daler piece of 1713 measures 24 cm. x 23 cm.

Besides these notable Coins, there are a large number of others of France, Russia, China, North America and the Central and South American Republics.

PRICED CATALOGUES.

*A*FTER each sale these catalogues are issued with the prices realised printed in the margin opposite each lot, thus giving at a glance a reliable guide to values.

The final test of value must always be auction prices rather than the figures given in books of reference, for changing times and fashions soon render the latter obsolete and misleading.

On the average we issue twelve Coin and Medal catalogues a year, some of which are usually of sales of important collections. The **priced catalogues** are posted to subscribers as soon as ready, usually about a week after the date of sale and the subscription is

ONE GUINEA per annum.
